Professional Experience

PT Swamedia Informatika - Mobile Developer

Mar 2023 – Present

Swamedia is Indonesia's information technology consultant, delivering Information technology solutions for large scale clients across Indonesia. In this company I work delivering 3 mobile apps, Diarium for PT Telkom Indonesia, Ferizy for PT ASDP Indonesia and OptimosHR for internal Swamedia.

- Delivered 3 enterprise mobile applications by developing scalable features using Flutter (Dart), Bloc/Cubit, and Clean Architecture, ensuring maintainable and production ready codebases
- Collaborated with cross functional teams (backend, QA, product, UI/UX) across 3 enterprise clients, contributing to successful delivery within Agile development cycles.
- Created Application HR for internal Swamedia called OptimosHr managed more than 100+ employees, implementing attendance and approval workflows that streamlined internal HR processes and reduced manual administrative tasks.

PT ASDP Indonesia - Mobile Developer

Nov 2025 – Present

PT ASDP Indonesia Ferry is a state owned enterprise (BUMN) operating in Indonesia's sea transportation and ferry crossing services, providing passenger and vehicle transportation across major ports nationwide.

- Contributed to the revamp and modernization of the Application called Ferizy, improving overall user experience, interface consistency, and application usability.
- Built a reusable Flutter plugin with native Kotlin and Swift implementations via MethodChannel, distributed as an Android library and iOS CocoaPods module for cross application integration.
- Lead a team for mobile developers and publishing applications to Google Playstore and Appstore.

Upwork - Mobile Developer (Freelance)

Jan 2025 – Present

Upwork is a global freelancing platform connecting businesses with independent professionals to deliver remote software development and digital product solutions for international clients.

- Delivered cross platform mobile applications and feature enhancements for multiple international clients using Flutter, React Native, Node js, focusing on scalable architecture and production ready implementation.
- Collaborated directly with clients, designers, and backend engineers to refine requirements, resolve technical challenges, and deliver features within agreed project timelines.
- Publishing applications to Google Playstore and Appstore.
- Handled basic infrastructure and backend deployment by managing DigitalOcean servers, including application setup, API deployment, environment configuration, and production maintenance.

PT Telkom Indonesia - Mobile Developer

Mar 2023 – Aug 2024

PT Telkom Indonesia is a state owned enterprise (BUMN) operating in telecommunications and digital services across Indonesia. Contributed to the development of Diarium, an internal HRIS mobile application used by Telkom employees.

- Developed and enhanced mobile features for Diarium, supporting internal HR processes such as attendance, approval workflows using Flutter (Dart).
- Collaborated with cross functional teams (backend, QA, product, UI/UX) to deliver features aligned with business and operational requirements.
- Publishing application using Appstore Enterprise and Firebase for android.

Digital Amoeba - Mobile Developer

Aug 2022 – Dec 2022

Digital Amoeba is Telkom Indonesia's internal innovation and incubation program focused on developing digital products, startups, and new technology driven business solutions within the Telkom Group.

- Contributed to the development of Eventeer, an event management mobile application published on the Google Play Store.
- Building mobile app using react native and redux state management.

PT Barrans Global Mandiri - Mobile Developer

May 2022 – June 2022

PT Barrans Global Mandiri is an Information Technology Consultant.

- As Mobile Developer specializing in pixel perfect, responsive UI implementation, translating UI/UX designs into scalable and high quality mobile applications for Android and iOS.

Education

Sangga Buana University - Bachelor of Engineering (B.Eng.)

Oct 2019 - Aug 2024
